Galtane Morsala is the name of the Italian who sells peaches and apples at the corner. His face has become very familiar to persons passing along Main street during the day. About 5 o'clock yesterday afternoon he was seated on the stone tep near the Planters National Bank smoking his pipe, when an Italian named Natala Capola came along with a basket on his arm, and in it a heavy billet of wood about fifteen inches long, one inch thick, and about three inches wide--one end having been cut so as

Certainly there is no better way of securing a vigorous mind and a strong, healthful body than by forgetting business and the cares of city life as often as possible, and escaping to the mountains, or even to the pure, fresh air of our own lowlands, and there rest and take that enjoyment which is found in these ex-

#### TO THE MOUNTAINS.

The first on the list for to-day is the usual Saturday afternoon trip made by the accommodation, or Grass-widowers' train, as it is now familiarly known, to Staunton and intermediate points. This train leaves Richmond at 4:30 P. M., and stops at all the places of summer resort on the road between this city and Staunton-such as Charlottesville. Ivy, Greenwood, Waynesboro', Afton, &c. Returning, the train will leave Staunton on Monday morning, and reach Richmond in ample time for business.

TO THE WHITE SULPHUR.

The ladies of Centenary Methodist church, in this city, have projected an excursion on a large scale, and the fare is exceedingly low. They have the prospect for a patronage from the public that warrants them in offering an inducement to a large number to avail themselves of the opportunity to visit this popular summer resort. Young men who have not the time or the money to spare for a long absence can spare five dollars and thirty-six hours to enjoy this excursion. Then, there are many of our older citizens who have not been to the White Sulphur, and who have not seen the mountains of Virginia, who can go and take their wives on a trip like this. The recreation and pleasure are worth the outlay for an excursion ticket of this kind. It is very doubtful whether a better opportunity, combining so much of pleasure and gratification, for so small a sum of money, will be presented to our citizens for long a time. Next Tuesday morning at 6 o'clock is the time. But little preparation will be necessary. No trunks to pack. No arrangements to make for a long absence. The fashion and beauty of the land will be assembled at the White Sulphur. 'The season will be at its height. The Virginia Historical Society will be in session at the Springs on Wednesday, the day that will be spent by the excursionists at White Sulphur. Provision has been made by the appointment of a committee of ladies to look after the comfort of ladies who may go without escorts. By this train also an opportunity is presented for persons who may wish to go to any of the Springs on the route for a day to do so. Sufficient time is allowed to go to the Rockbridge Alum, Jordan's Springs, Cold Sulphur, the Bath Alum, Millboro' Springs, or the Sweet Springs; and so of the rest, and get back to the railroad by the time the excursion train returns as it will not leave the White Sulphur till 7 P. M. on the evening of the 18th. The schedule will be found in another column.

Annual Message of the Mayor.

CITY COUNCIL.-A called meeting of this body was held last night at 82 o'clock at the Council Chamber. Present : Mr. Perdue president pro tem.), and Messrs. Craig. Eubank, Jones, Monteiro, Moles, and White-

head. The annual message of the Mayor was read as follows:

MAYOR'S OFFICE, ? MANCHESTER, August 5. 1875,

To the Honorable President and Members of the City Council: Gentlemen, -- After twelve months of official labor, it affords me pleasure again to communicate with you. In reviewing your official action for the past year, it is a matter of earnest congratulation that you have so well and faithfully discharged the duties assigned you. Coming into office as you did with the responsibilities of a new and untried government, with additional work and increased expenditures, and the additional embarrassment of a depleted treasury, you have by arduous labor and earnest effort met your responsibilities, and according to the report of the efficient chairman of your Finance Com mittee have succeeded in relieving our city of what seemed to be a decided, financial embarrassment. The exhibit of your finances shows the city to be in a prosperous condition, and has awakened in the minds of our citizens a hope that you will during the coming year accomplish much in the way of permanent improvement. I feel it to be useless to speak specially of the financial condition of the city, as the report above alluded to sets forth fully and clearly our financial status. Suffice it to say that the thanks of our people

Improvements .- In justice to your honormuch has been done in the way of improvebeen to some extent enlarged and improved; the water-power has been more fally utilized, and still greater improvements are in contemplation which, we have reason to hope, will soon be pressed to a successful termina-

But, gentlemen, while much has been done more remains to be done. The demand for a city jail (urged in a former message) is increasing, and demands your immediate attention. The figureisl aspect of this question was fully discussed in that message, hence needs no further notice; but apart from this, the number in the city chain-gang is greater than at any time previous, and the present prison accommodations are wholly inadequate. The health of the prisoners, as well as a feeling of humanity, requires that some other place of confinement should be provided. Beside the foregoing reasons there is still another. On account of the additional building erected in rear of the prison the cells have no other ventilation than that given through the Mayor's court-room, You can readily imagine the disagreeable, not to say offensive, condition of this room atter the confinement of a large number of prisoners for the night.

The School Commissioners of the city have called your attention to the necessity of

erecting suitable Public School-Houses .- This is a necessity long felt. We find from the last census as long felt. We find from the last census as compared with the number of scholars in our public schools that a great number of the children are crowded out of our schools. I doubt not that you will fully appreciate this necessity and use every effort to secure for our efficient corps of teachers comfortable.

necessary that your attention should be called to the subject of making some satisfactory arrangement for our paupers. Fortunately, there are a very few of this class in our midst; but the history of every city proves that with the increase of population there will be an increased demand for the care of the poor. By an arrangement now existing the poor of our city are cared for at the county poor-house, the charge for which I must say I think is exorbitant, and I feel it will be to the interest of our city to secure a more satisfactory and less expensive plan of providing for them. I would respectfully suggest that the Council consider the propriety of purchasing a few acres of land in proximity to the city, erecting a plain building thereon, and securing the services of some reliable man to superintend it, and thus by the cultivation of the land make it a "self-sustain-

ing" institution. Mayor's Court .- I have the honor to report that, in accordance with an ordinance passed by your honorable body governing the Mayor's Court, I advertised that one day in each week would be devoted to the trial of civil cases. So far no business of this charucter has been brought before the court. charged with trespassing on the premises of This is possibly due to the fact that very little civil business is being transacted,

Chan-Gang .- I regret to announce that there have been two additional escapes of prisoners from the chain gang since my last communication. The Board of Police Commissioners, after strict inquiry into the matter, are of the opinion that this was due rather to the insecurity of the fastenings than ent. A new and more secure way of confinement has been adopted, and it is confidently believed that these prisoners in the future

will be securely kept. With my earnest wishes for a pleasant and prosperous future for your honorable body, I am, respectfully, &c., L. R. CHILES,
